

1. Exploded view and spare parts of the lift

The following list identifies the main spare parts of the lift. For replacement of any other component, please contact METALU offices.

4	Silla	57	Seat tube
5	Porta - silla	58	Mast support
6	Folding armrest	59	Positioner ring
7	Safety belt	60	Linear actuator
8	Footrest	61	Upper actuator pin
9	Accessory tube	62	Lower actuator pin
12	Base wheels	63	Manual positioner (MODEL S-3800)
15	Anchor bolts	64	Motor protective cover (MODEL S-3800/1)
48	Accessory clamps	65	24V rotation motor (MODEL S-3800/1)
51	Base and mast	66	Box control
52	Mast protective cover	67	Battery
53	Arm protective cover	68	Control box support
54	Arm	69	Control unit (push-button panel)
55	Arm support	70	Battery charger
56	Safety attachment or cable guide (MODEL S-3800/1)		

11. Spatial dimensions of the lift

The METALU S-3800 and S-3800/1 models are manufactured with a customised design according to the pool profile required by the lift. Therefore, the dimensions of the lift arm and the seat tube may vary.

The following image shows the dimensions of the lift for a standard model (974 arm), units in millimetres [mm].

* Arms of different sizes are available to adapt to any type of pool. For more information regarding other lift arms, refer to the document "Adaptability to the pool basin" for the METALU S-3800 model.

** The dimension of the seat tube is adjusted to a larger or smaller size to adapt to any type of pool.

The lift must be installed away from obstacles within its operating area. In three-dimensional space, the operating area of a standard lift is shown in the following image:

Working area of the lift in three-dimensional space for a standard lift.

MANUFACTURAS METÁLICAS LUISIANERAS, S.L.

Battery-powered pool lift METALU S-3800 y S-3800/1
